OVERVIEW

SPECIFICATION

ABOVE & BEYOND

Ever since the first Land Rover was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

EXTERIOR

This is a modern, relevant and compelling vehicle, with its well-proportioned compact body and purposeful stance. Its distinctive silhouette and beautifully sculpted surfaces all combine to create a vehicle that truly connects on an emotional level.

New Discovery Sport is ready for anything. Characteristic design cues complement perfectly balanced proportions. Strong dynamic lines and robust detailing signal

New Discovery Sport's incredible breadth of capability.

Signature features include a clamshell bonnet and distinctive two-bar grille with hexagonal mesh.

The fast bonnet line with a pronounced step into the rising belt line conveys a dramatic stance, whilst the roof tapers subtly downwards, adding extra dynamism.

INTERIOR

The desirability of the exterior design continues into the cabin with bold horizontal and vertical lines. Complemented by clean surfaces, superb finishes and optional premium leathers to promote what is a highly versatile package. Inside and outside seamlessly blend into a vehicle that clearly communicates its Discovery DNA, whilst firmly looking forward.

This spirit of adventure is reflected in New Discovery Sport's interior, which has been designed with you at its core.

It features high-quality materials and a strong vertical centre console graphic to reflect the premium design of the exterior.

The cabin is integrated with up to four 12V power points and six USB charging sockets. These can be specified for all three rows of seating, allowing multiple electronic devices to be charged simultaneously.

5+2 SEATING

New Discovery Sport offers exemplary levels of comfort and outstanding versatility. The second row is extremely spacious and flexible with the seats able to slide back and forth by 160mm for greater loadspace or comfort.

The third row, with its simple, single-handed 50:50 deployment, has been cleverly incorporated to avoid any compromises to the vehicle's exterior design, whilst maintaining passenger comfort.

By folding down the third row, a flat loadspace is available for whenever you need it.

Each row of seats sits slightly higher than those in front in a stadium-style layout which means all passengers have a better view of the road ahead. So wherever you're seated, or whatever you want to carry, you can relax.

LOADSPACE CAPACITY

Family and friends keen to get out there and make the most of a new day? New Discovery Sport has been designed and engineered to meet any challenge.

The vehicle has flexible seating which, when stored flat, gives a load floor that is as long as Range Rover and provides maximum loadspace of 1,698 litres.

Even whilst carrying five people, the loadspace is still an impressive 981 litres. New Discovery Sport can handle bulkier loads with consummate ease when the second and third row are folded flat. Such flexibility helps make carrying family, friends and all their gear that much easier.

HSE DYNAMIC LUX

The New Discovery Sport HSE Dynamic Lux delivers a more assertive stance whilst retaining the instantly recognisable design cues of the Discovery Sport. Yet, when it comes to capability and versatility, nothing has been lost.

However, in terms of dynamism and appeal, much has been gained. The vehicle's bold new front and rear styling

with new contoured side mouldings form a dramatic presence.

This has been augmented with Gloss Black wheels and new black mesh design for the front grille and side vent. Distinctive chrome exhaust finisher together with a red Sport badge and Privacy Glass to further enhance the appearance.

TERRAIN RESPONSE

Land Rover has always been synonymous with capability and the New Discovery Sport lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response.

This feature adapts to the responses of the vehicle's engine, gearbox, differentials and chassis systems to maximise driveability, comfort and traction.

There are four standard Terrain Response settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand. So, the vehicle feels sure-footed no matter what the terrain or weather conditions. A fifth setting, Dynamic Mode can be selected on the Terrain Response system when **Adaptive Dynamics*** is specified. This mode tunes the suspension to deliver even tighter body control with flatter handling and sharper responses.

*Optional as part of the Intelligent Dynamics Pack.

OVERVIEW

SPECIFICATION

ALL-TERRAIN PROGRESS CONTROL*

All-Terrain Progress Control is a state-of-the-art new system that enables drivers to set and maintain a steady speed in challenging conditions.

Operating like a cruise control system, it functions between 1mph and 18mph, enabling the driver to maintain full concentration on steering and finding a path through obstacles, while the vehicle controls the engine and brakes to hold a comfortable, steady speed.

In addition, the system also features a dedicated launch feature, which enables the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like ice, snow or wet grass.

Developed by Land Rover's industry-leading all-terrain specialists, it works seamlessly alongside the standard Terrain Response and four-wheel drive, traction and braking systems.

Once All-Terrain Progress Control is activated, the standard steering wheel +/- cruise control buttons are used to set the speed; brake and accelerator pedals can still override the chosen settings, with gentle braking achieving a reduction in target speed.

*Optional as part of the Intelligent Dynamics Pack.

HILL DESCENT CONTROL

New Discovery Sport bristles with technologies that enhance the vehicle's performance and capabilities. One such feature is Land Rover's patented Hill Descent Control (HDC) which assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.

Hill Start Assist ensures you don't roll backwards as you pull away on an incline. The vehicle also utilises **Gradient Release Control** which is designed to prevent the vehicle 'running away' on a steep incline when the driver inadvertently releases the brake.

LINE CORRECTED

TORQUE VECTORING

UNDERSTEER DETECTED

ACTIVE DRIVELINE*

In many on-road driving conditions, Active Driveline is able to disconnect drive to the rear of the vehicle, providing maximum two-wheel drive fuel economy. Sophisticated software continuously monitors key vehicle and environmental parameters. If the requirements for four-wheel drive are met, the system seamlessly and imperceptibly reconnects the four-wheel drive system within 300 milliseconds.

A dedicated 4x4i screen on the eight-inch Touch-screen display relays detailed information, so you always feel in control.

When cornering, the vehicle's agility and stability are enhanced by a **Torque Vectoring by Braking system**. Monitoring the vehicle, the system constantly balances the distribution of torque between all the wheels to improve grip and steering whether on or off-road.

ADAPTIVE DYNAMICS*

Adaptive Dynamics with advanced MagneRide™ monitors vehicle movements at least 1,000 times per second, reacting to driver or road inputs instantaneously to give greater control and minimise body roll, providing a balanced, flat ride.

The system will even sense off-road conditions and optimise the advanced MagneRide™ damper settings accordingly, delivering the perfect balance of agile handling and a supple, controlled ride.

*Optional as part of the Intelligent Dynamics Pack.

TOW HITCH ASSIST*

Tow Hitch Assist makes coupling a trailer to the vehicle that much easier by helping you visualise the hitching process; it displays the predicted path of the vehicle towards the trailer tow bar on the Touch-screen.

On the road, the **Tow Hitch Assist** feature helps with reversing by predicting the trailer's direction. You can even choose your trailer's width for precise guidelines displayed on the Touch-screen.

SURROUND CAMERA SYSTEM*

The HDR megapixel 1.2 Surround Camera System is an optional feature using four digital cameras, discreetly placed around the vehicle, to provide an almost complete 360 degree view on the Touch-screen including a birds-eye overhead view. It aids parking and is perfect for more complex driving assignments such as towing a boat or a horsebox.

Along with the capacity to display several different views at the same time, this technology can also zoom and pan, ensuring objects and angles, normally below the line of sight, will be seen.

*Optional as part of Heavy Duty 2,500kg Electrically Deployable Tow Bar Pack.

HEAD UP DISPLAY*

Head Up Display is a technological option that presents key vehicle data such as road speed, gear position and navigation directions on the windscreen, without distraction or the need for you to take your eye off the road. In a world first, the Land Rover system features laser holographic techniques, resulting in superior colour saturation, brightness and contrast.

The innovative laser system is more robust against issues such as 'washout' – the effect that the glare from sunlight has on inferior LED-based systems.

*Optional as part of the Head Up Display Pack.

†Optional as part of the Entertainment Packs

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover under licence.

DUAL VIEW TOUCH-SCREEN†

The centrepiece of the fascia is the eight-inch high-resolution Touch-screen that's available with the Dual View system. This allows the driver and passenger to view completely independent display content; for example, the driver can use the Satellite Navigation System, while the front seat passenger is able to watch a DVD or TV. One set of WhiteFire® digital wireless headphones is included.

SPECIFICATION

COMFORT FOR ALL

CLIMATE FRONT SEATS

For the ultimate comfort whatever the temperature, climate front seats are available. This option provides both heated and cooled ventilation through perforations in the leather seats. The driver and passenger preferences can be independently controlled via the Touch-screen.

HEATED REAR SEATS

For added comfort vehicles can be specified with optional heated second row seats.

CONFIGURABLE MOOD LIGHTING

New levels of ambient refinement and personalisation have been reached with the option of Configurable Mood Lighting. Using a combination of coloured LEDs, this feature allows you to vary the shade, changing the ambience of the cabin to suit your mood. There are five colours in total, ranging from white through to moonlight and red.

TELEVISION

Optional analogue/digital television* channels can be watched on the rear screens and front seat passenger display.

PANORAMIC ROOF

The optional full glass fixed panoramic roof enhances the sense of space in the vehicle's interior and floods it with natural light as well as providing uninterrupted views of the surrounding environment.

To maintain a comfortable interior temperature and to provide a sense of privacy, the toughened glass has a dark tint to offer a high degree of solar protection. When additional shade or privacy is required, an electric fabric sunblind can be extended across the full surface of the glass roof.

POWERED TAILGATE

This optional feature allows the tailgate to be opened using the key fob, a switch on the fascia or operated independently using a button on the tailgate itself. A button located inside the tailgate allows the tailgate to be closed automatically.

USB CHARGING POINTS

Want to charge a games console, tablet or smartphone whilst you're on the move? New Discovery Sport has the option of six charging USB ports throughout all rows, to make charging your device effortlessly simple.

*Whilst Land Rover continues to work closely with its partners to develop TV standards worldwide, we cannot guarantee the TV feature in all countries at all times.

LAND ROVER INCONTROL

INCONTROL TOUCH

InControl Touch is the command centre for a wealth of features designed to make your driving experience more entertaining and safer. It features a contemporary and fresh graphical design displayed on an eight-inch Touch-screen.

It is the central hub from where you can connect and control your chosen entertainment and media. You can therefore enjoy an unimaginable amount of music and imagery all within one simple to use system. The ability to connect your smartphone via Bluetooth® is also available.

It is the interface where you can control the ambient lighting to suit your mood and preference, by varying the colour and brightness level. The system also controls the air flow distribution within the car and allows you to operate the climate seats. In addition, the system also offers a timed climate feature which acts as a digital thermostat, allowing you to set specific times and dates as to when your climate control is activated.

InControl Touch provides all of the capabilities that you need such as navigation system, Bluetooth® connection on your phone, ECO Data functionality and the Land Rover 4x4i function.

INCONTROL PROTECT

InControl Protect is standard on all Discovery Sport derivatives enabling you to monitor your vehicle wherever you are. The InControl Remote Essentials App, downloaded through the App Store or Google Play, ensures you are fully prepared for your journey by displaying the fuel level and location of your vehicle. Remote Essentials also gives you vital information on fluid levels and whether your vehicle is locked or any doors or windows are open. You are also able to download your journeys to assist in reviewing mileage.

InControl Protect gives you peace of mind through SOS Emergency call and Optimised Land Rover Assistance. In the event of an emergency, the SOS Emergency call notifies the emergency services of the location of your vehicle.

INCONTROL CONNECT*

InControl Connect gives you outstanding connectivity within your vehicle, ensuring you and your passengers enjoy the journey whilst remaining connected.

INCONTROL APPS

Connects your smartphone with the Touchscreen in your vehicle, meaning you can stay safely connected to your smartphone. InControl Apps enables you to control compatible apps on the InControl Touchscreen, ensuring the safe and convenient use of apps that have been optimised specifically for use within your vehicle.

INCONTROL REMOTE PREMIUM

InControl Remote Premium is an app available on Android and iPhone®, which allows you to interact with your vehicle remotely. InControl Remote Premium not only provides basic information with the use of Remote Essentials, it also enables you to communicate with your vehicle. You are able to lock/unlock your vehicle, cool/heat your vehicle to the desired temperature prior to your journey and set a 'beep and flash' in order to locate your vehicle in a crowded car park.**

INCONTROL WI-FI HOTSPOT†

Connects your vehicle to the internet, allowing you and your passengers to stay connected on the move. You can connect up to eight devices to 3G cellular networks to browse and stream the web, meaning you never have to be out of touch.

INCONTROL SECURE*

If someone breaks into your Land Rover or moves it illegally, InControl Secure automatically tracks the vehicle and alerts you and the InControl Secure monitoring centre††, helping pinpoint and recover your vehicle as quickly as possible.

Even if your car is stolen with the keys, you can activate the alert by calling the tracking call centre using the InControl Essentials.

*This is available as an optional feature.

**Functionality is market dependent. Please ask your Land Rover Retailer for more information.

†Requires a data SIM with a suitable data package.

††In some markets, this may link to the emergency services or an independent secure monitoring centre. Please refer to your Land Rover Retailer for further information.

iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.

Features and their availability may differ by vehicle specification and market. Please contact your Land Rover Retailer for further information.

The Bluetooth® word mark and logo are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

NINE-SPEED AUTOMATIC

The 2.0L TD4 Diesel 180hp engine in New Discovery Sport is paired with an optional state-of-the-art nine-speed automatic gearbox with an innovative adaptive shifting system which matches the driver's mood within seconds. One of the most efficient and technically advanced transmissions used in a production vehicle, its controls include rotary gearshift and steering wheel-mounted paddle-shift as standard.

Nine gears deliver improvement in fuel economy and a corresponding reduction in CO₂ emissions whilst smaller ratio steps give improved response during acceleration, improved shift quality, drive and refinement.

OVERVIEW

SPECIFICATION

INGENIUM DIESEL ENGINE

The all-new Ingenium diesel engine has been designed and engineered to deliver outstanding levels of performance, economy and refinement. Using a lightweight aluminium construction and state-of-the-art technologies to reduce engine friction and noise levels, it delivers exceptional smoothness, efficiency, and responsiveness in all driving conditions.

Ingenium engines meet the latest EU6 emissions standard and feature Intelligent Stop/Start technology; this can improve fuel efficiency and reduce CO₂ emissions in low speed environments.

With 430Nm torque, the TD4 180hp engine offers effortless performance together with CO₂ emissions of just 139g/km in both six speed manual and nine speed automatic format. Added to which, Ingenium engines are more convenient and affordable to own than ever, with routine maintenance intervals of 2 years or 21,000 miles* and available with a 5 year service plan option.

E-CAPABILITY

The 2.0 litre TD4 150hp engine has even lower CO₂ emissions of just 129g/km, but still retains all of Land Rover's legendary all-terrain 4WD capability. TD4 150hp E-Capability models feature five seats and a manual six-speed gearbox as standard. E-Capability engines are denoted by a blue SPORT badge on the rear of the car.

> BUILD YOUR OWN

OVERVIEW

SPECIFICATION

BODY AND CHASSIS

STRENGTH AND STABILITY

BODY

New Discovery Sport features an extremely strong, lightweight body structure which has been developed using advanced, weight saving materials to deliver outstanding stiffness and refinement together with excellent crash performance.

The structure is based on a steel monocoque foundation which is derived from Land Rover's compact SUV platform.

Lightweight technologies are used extensively in the body design including an optimised steel body construction, aluminium bonnet, roof and tailgate panels, lightweight aluminium suspension components, magnesium cross car beam and front end carrier.

CHASSIS AND VEHICLE DYNAMICS

New Discovery Sport has an advanced new fully independent suspension system that has been specially developed by Land Rover engineers to deliver agile and refined on-road dynamics along with the brand's legendary all-terrain capability. Lightweight aluminium chassis components are used extensively on New Discovery Sport to improve suspension performance by increasing stiffness and reducing unsprung weight, while also reducing total vehicle weight.

BODY AND CHASSIS

STRENGTH AND STABILITY

FRONT SUSPENSION

Aluminium components are used within the front suspension, including the front lower control arm and suspension knuckle. The front suspension struts have advanced hydraulic rebound stops, which help to manage the noise and loads caused by severe impacts such as speed humps to maintain composure in urban and off-road environments.

COMPACT REAR SUSPENSION DESIGN

New Discovery Sport has a fully independent suspension system that combines front coil-sprung struts with an advanced new multi-link rear suspension design. This delivers enhanced dynamics and refinement together with a compact layout to provide increased interior space.

The system has been specifically developed to enhance New Discovery Sport's unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement. Excellent wheel travel and articulation helps the vehicle achieve class-leading off-road performance.

The compact aluminium multi-link layout also creates a much more spacious rear compartment, with enhanced shoulder and elbow room, the 5+2 seating* and increased luggage space.

Mounted on an optimised steel subframe, the system is light and stiff for optimum steering response, chassis performance and refinement.

*Only available on TD4 180bhp engines.

OVERVIEW

SPECIFICATION

SAFETY

5* EURO NCAP RATING

As with every Land Rover, safety was a key priority in the development of New Discovery Sport, resulting in a first-in-class pedestrian airbag, autonomous emergency braking, and a state-of-the-art bodyshell featuring both ultra-high-strength steel and lightweight aluminium. New Discovery Sport has been awarded the maximum five star safety rating from Euro NCAP.

In all variants, including 5+2 seat models, all seating positions are assessed to ensure a high standard of occupant protection. With a roof that will support more than 4.5 times the vehicle weight, New Discovery Sport also has a comprehensive occupant safety package including driver and passenger airbags, driver knee airbag, and side curtain and thorax airbags.

DRIVER SAFETY AIDS

PEDESTRIAN PROTECTION SYSTEM

New Discovery Sport features a state-of-the-art pedestrian airbag system. Designed and tested to the most rigorous standards including advanced virtual and real-world situations, it protects pedestrians from impact with the base of the windscreen by using an airbag mounted within a cover found at the trailing edge of the bonnet panel.

LANE DEPARTURE WARNING

A forward-facing camera mounted ahead of the rear view mirror monitors the lane markings on both sides of the vehicle and gives the driver a warning should the driver drift out of the lane without the indicators being triggered. The alert comes in the form of a discrete vibration through the steering wheel, allowing the driver to take the appropriate action.

TRAFFIC SIGN RECOGNITION

Working in conjunction with the navigation system, this system scans the road ahead for certain traffic signs and displays them in the Message Centre in the instrument pack. The following signs are detected: speed limit signs, no-overtaking signs, variable overhead speed signs and traffic signs.

OVERVIEW

SPECIFICATION

DRIVER SAFETY AIDS

AUTONOMOUS EMERGENCY BRAKING

This system helps further enhance the active safety aspects of New Discovery Sport. Using a forward-facing digital camera, it detects vehicles and automatically reduces impact speed if it calculates that a collision is likely. The driver is alerted of the risk by a visual and audible warning signal.

PARALLEL PARK, PARKING EXIT AND PERPENDICULAR PARKING

Optional Parallel Park identifies suitable parking spaces and automatically steers into the space whilst you operate the pedals.

Parking Exit provides the same assistance to manoeuvre out of the space. Perpendicular Park is an optional addition to the system. Truly useful in car parks and tight spaces, it automatically assesses whether the chosen space is wide enough before steering the vehicle centrally into place.

ADAPTIVE XENON HEADLAMPS

With their signature design, these optional distinctive LED lights combine distinctive looks with real capability. Adaptive Xenon lights swivel to follow the road while static bending lamps follow the kerb to give the driver greater confidence at night.

SUSTAINABILITY

Sustainability is at the heart of everything we do and consequently all powertrains on New Discovery Sport have been optimised to enhance sustainability by minimising fuel consumption and CO₂ emissions.

The diesel engine features the latest high-pressure direct injection technology and state-of-the-art low-friction designs which have been carefully developed to minimise frictional losses. Whilst both six-speed manual and **nine-speed automatic transmissions** are specified with the latest low viscosity transmissions fluid to maximise efficiency.

An advanced **intelligent Stop/Start system** is standard on both manual and automatic models which automatically shuts down the engine in just 300 milliseconds when the car comes to rest. This improves fuel economy and CO₂ emissions by between five and seven percent.

A smart **regenerative charging electrical system** has also been introduced which has an intelligent power management system to prioritise charging when the car is decelerating, capturing the wasted kinetic energy and reducing the fuel demand of the electrical system.

The **ECO Data** feature provides drivers with information and feedback via the eight-inch Touch-screen to help them adopt more economical driving habits.

ECO MODE

This standard feature when activated prioritises the most efficient vehicle settings including auto transmission.

OVERVIEW

SPECIFICATION

OPTIMISED AERODYNAMICS

With its more streamlined profile, New Discovery Sport is the most aerodynamic Land Rover yet, with an eight percent reduction and a drag coefficient (Cd) of 0.36. New Discovery Sport also offers a unique 18 inch alloy wheel for optimised aerodynamics.

LIGHTWEIGHT MATERIALS

To optimise vehicle performance and efficiency, New Discovery Sport has been developed using lightweight materials and technologies. The vehicle has been designed with key weight-saving technologies including an optimised steel body construction, aluminium bonnet, roof and tailgate panels, lightweight aluminium suspension components, magnesium cross car beam and front end carrier.

The four-wheel driveline components have also been optimised for weight. The interior has also been designed with efficiency in mind, with optimised seat structures which use laser-welded high tensile steel.

E-CAPABILITY

Land Rover has begun producing specific derivatives that deliver the lowest possible CO₂ emissions. These are called 'E-Capability' and are denoted by a blue SPORT badge on the rear of the vehicle.

With our E-Capability solution, CO₂ can be as low 129g/km on a four-wheel drive manual TD4 150hp diesel engine, ensuring your vehicle is as efficient as possible.

DRIVELINE, ENGINE PERFORMANCE AND FUEL ECONOMY

The superbly engineered diesel engine is paired with a state-of-the-art nine-speed automatic transmission or a six-speed manual transmission. With our E-Capability solution*, CO₂ can be as low as 129 g/km on a four-wheel drive manual diesel engine, ensuring your vehicle is as efficient as possible.

BLACK DESIGN PACK

Personalising the exterior

For an even more striking effect New Discovery Sport can be further personalised with the optional Black Design Pack (standard on HSE Black). Emphasising the assertive, confident stance of the vehicle, the Black Design Pack makes New Discovery Sport your own.

The Black Design Pack is available in all exterior colour options and includes the following: Santorini Black contrast roof, Narvik Black grille, fender vents and mirror caps with Black 'DISCOVERY' bonnet script and tailgate badging and 20 inch Gloss Black alloy wheels.

Grille in Narvik Black.

20 inch five split-spoke 'Style 511' with Gloss Black finish.

Door mirrors in Narvik Black.

Fender vents in Narvik Black.

LAND ROVER APPROVED ACCESSORIES

New Discovery Sport is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their New Discovery Sport to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalisation

to New Discovery Sport. Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Side Tubes*
VPLCP0209

Manufactured from stainless steel with a highly polished finish. The rugged off-road appearance complements the vehicle's exterior design.

Stainless Steel Front Undershield
VPLCP0212

The off-road styled undershield features a premium bright polished finish for the front of the vehicle.

Stainless Steel Rear Undershield**
VPLCP0213

The off-road styled undershield features a premium bright polished finish for the rear of the vehicle.

Gearshift Paddles
VPLVS0187CAY - Aluminium Red

Premium aluminium paddles are machine polished, anodised and hand brushed to provide exceptional wear resistance with a premium finish.

*Fitting of side tubes or side steps may affect the off-road capability of vehicle.

**Not available with towing systems for vehicles equipped with 5+2 seating and reduced section spare wheel.

Please note: The design of accessories is subject to change and may differ from the images shown. To view the full range of accessories and prices please ask your Retailer for an accessory brochure. Alternatively visit accessories.landrover.com

Drive Select Rotary Shifter Upgrade
VPLVS0180 - Red
VPLSS0143PVJ - Leather Drive Select Top Cover

Illuminated Treadplates
VPLCS0286LAA - Lunar
VPLCS0286PVJ - Ebony (not shown)

Retailer-fit treadplates featuring illuminated Discovery script. Supplied as a pair for driver and front passenger sides of the vehicle to welcome you into the cabin.

Bright Finish Treadplates
VPLCS0289LAA - Lunar
VPLCS0289PVJ - Ebony (not shown)

Front pair of bright finish treadplates to add style to your vehicle and protect the sill trim from scuffs and scrapes.

OVERVIEW

SPECIFICATION

Rear Sun Blinds
VPLCS0298 – Second row
VPLCS0297 – Third row
VPLCS0296 – Tailgate (not shown)

Easy to install or remove these sun blinds provide increased comfort helping to protect passengers from heat and glare of the sun. Three versions available for the second row, third row passenger side windows and the rear tailgate.

Seat Back Stowage
VPLVS0182 – Premium
VPLVS0181 – Standard (not shown)

Convenient stowage system manufactured from the same grade of Windsor leather available in the interior, for the rear of the front seats provides multiple compartments for stowing small items. The premium seat back stowage also features a soft touch interior lining and magnetic clasps.

Roof Rails*
VPLCR0137 – Silver finish (panoramic roof)
VPLCR0133 – Silver finish (fixed roof)**
VPLCR0136 – Black finish (panoramic roof)
VPLCR0132 – Black finish (fixed roof)**

Roof rails facilitate easy fitment of cross bars. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Maximum payload is 75kg.†

Cross Bars*
VPLCR0131

T-track design utilises the full length of the bars, providing space to mount multiple accessories. Aerodynamic profile minimises drag and noise. Roof rails not included.

iPad® Holder
VPLVS0165 – iPad®
VPLVS0164 – iPad® 1

Provides secure mounting for your iPad®. Rear seat facing, attaches to the head restraint posts.

iPad® is a registered trademark of Apple Inc., registered in the US and other countries.

Loadspace Rails
VPLCS0303

Loadspace Rails enable a number of convenient carrying accessories. The Luggage Retention Kit consists of a pack of attachments that fix into the loadspace rails via a quick lock/quick release system to provide a flexible solution for retaining items. The attachment pack includes a retractable strap with inertia reel, telescopic rod and stowage bag.

Luggage Retention Kit
VPLCS0324

Roof Box*
VPLWR0100 – Large Sports Roof Box*
VPLVR0061 – Sports Roof Box* (not shown)
VPLVR0062 – Luggage Roof Box* (not shown)

Available in a range of sizes, all versions can be mounted either side for kerbside opening in any country and include integral locks for security and peace of mind. Maximum payload 75kg.†

*Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. **Vehicles with a fixed roof require separate ditch finishers, colour matched to the rails. Part No. Silver – VPLCR0135 and Black – VPLCR0134. †Maximum payload equals the load capacity of the roof mounted accessory. ††Compatible with 2nd, 3rd and 4th generation iPads®. Not compatible with iPad Air™ or iPad Mini™. iPad® is a registered trademark of Apple Inc., registered in the US and other countries.

OVERVIEW

SPECIFICATION

Luggage Divider – Full Height*
VPLCS0299

The luggage divider is designed to prevent cargo from entering the passenger compartment. It incorporates a useful integral ski hatch that allows longer items to be carried where a suitable rear seat option is fitted. The design of the luggage divider has been optimised to second row seating featuring tilt functionality. The Loadspace Partition can be fitted to either the full height or half height luggage divider to separate the loadspace into two sections.

Luggage Divider – Loadspace Partition*
VPLCS0301

Luggage Divider – Half Height*
VPLCS0300

The luggage divider is designed to prevent cargo from entering the passenger compartment. The design of the luggage divider has been optimised to second row seating featuring tilt functionality.

Loadspace Mat – Rubber
VPLCS0279

Waterproof rubber mat helps to protect the rear loadspace carpet from general dirt. Rubber mat extension for protection of the back of the rear seats when folded down also available – Part No: VPLCS0273.

Side Steps**
VPLCP0210

The side steps aid entry and exit to the vehicle and improve access to the roof. Design features include bright stainless steel edge trim and a rubber tread mat.

Rubber Floor Mats
VPLCS0278

VPLCS0280 – Third row (not shown)

Rubber footwell mats help provide protection from general dirt.

Front Mudflaps
VPLCP0203

Mudflaps to reduce spray and help protect paintwork.

Rear Mudflaps
VPLCP0204
VPLCP0205[†]

*Can be fitted with Loadspace Rubber Mat (VPLCS0279) and Loadspace Liner Tray (VPLCS0268)

**Fitting of side tubes or side steps may affect the off-road capability of vehicle [†]Offered for vehicles equipped with 5+2 seating and reduced section spare wheel.

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience centres. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

BEHIND THE SCENES TOURS

Ever wanted to discover how your Land Rover was built? To see the incredible journey upon which each and every one of our vehicles travels before you receive it?

You can experience how it is created using state-of-the-art technologies, the most efficient processes, the finest materials and British Craftsmanship at our facilities around the world.

From on-demand ordering of parts, to final trim and quality tests, the entire process will come to life before your eyes. It's a truly impressive display of engineering, craft and precision; one that you can then physically enjoy by taking a vehicle out onto one of our Experience Drives.

EXPERIENCE DRIVES

Wading through mud. Crossing a Tipping Bridge. Or creeping up a slippery, steep incline. Our Experience centres have an array of obstacles and challenges to tax even the most accomplished of drivers.

Our experts will teach you how to navigate through some of the most demanding terrain. Then, you can take the skills that you have learned and use them when you drive every day.

There's a choice of courses from Taster Drives through to Full Day Experiences, available in over 40 Land Rover Experience operations around the globe. Each one provides a unique and hugely memorable adventure that you, your family and friends can all enjoy.

You'll never feel more confident behind the wheel.

To book, go to landrover.com/experiencedrives

ADVENTURE TRAVEL

Which destination would top your wish list of places to go on an adventure? The wide open, savagely beautiful plains of the Serengeti? Or simply exploring castles and manors around Britain? Well, you can revel in an epic adventure from the comfort and luxury of a Land Rover, assured in the meticulous planning and local insight for which Abercrombie & Kent is renowned. These two great British brands have come together to bring you a world of exploration, adventure and luxury in iconic worldwide destinations.

Each trip has a local guide and expert Land Rover instructors to provide support and guidance, ensuring you get the most out of your driving experience. Added to which, you will stay in boutique accommodation. Be part of an extraordinary journey, reimagined.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,600 kilometres/1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Castrol EDGE Professional exclusively recommended by Land Rover.
